APPU-EC Market Development and E-Services Working Group meeting

Briefing on UPU activities from POC C3 2021.1

**Paul Donohoe
Manager, Digital Economy and Trade**

(Virtual session of 28 June 2021)

UPU

UNIVERSAL
POSTAL
UNION

Agenda

1. Recap of UPU decisions from April 2021 (POC 2021.1)
 - E-Services
 - Direct Marketing
 - Philately and IRC
2. UPU E-commerce Suite
 - ORE, DRE, PRE
3. NEW UPU DRE technical assistance regional project
4. Cybersecurity and .POST
5. LEAPFROG - Blockchain and other Innovation partnerships

SURVEY: What are you expecting to learn from today's workshop?

- To be able to understand what digital transformation of Postal Services Project is all about
- Basics on **cybersecurity** in the Postal Services sector;
- **Addressing initiatives** in relation to the digital/ICT technologies
- Enhance the **knowledge about digital in postal services** and the open opportunities to explore for sustainable future
- **Updating my professional knowledge**, Learning new methods and new knowledge for digitization of our postal services.
- **Hear from the postal operators in the region** of new digital services that they have introduced
- New ideas and ways of **improving the performance of the Post**.
- Increase my knowledge about e-commerce and can be implemented in companies in the context of **digital transformation in the postal sector**.
- How many UPU digital postal services has created and how our postal could use for these services.
- The **role the UPU plays in e-services and markets development**. How this can help me to **help respond to the needs, wants and demands** of my sending and receiving customers. How my **post can operate more effectively** and thus **benefit from the current e-commerce boom**.

Issues relating to the E-Services Development Group (ESDG)

Chair: Tunisia

Mr Oussema Rouatbi

Members' need

The COVID-19 crisis has highlighted the importance of adopting adequate document management tools, and has created an urgent need for a shared secure digital system where all communications and documents are archived and made available to members, including those traditionally sent in paper format by posts.

Digitize communications

Circular Letters

Surveys,
questionnaires

Invoices,
payment
status

Information
Documents,
publications

No need to go to the office to collect your mail: You will access it via your PC, Tablet, Smartphone

possible technical solutions

Rationale and objective

- Streamlining internal processes to make them more immediate and effective would translate into an improved, more timely and restructured communication system to benefit all Union stakeholders

Some of the key functions features

- creating a shared digitalized archive (database)
- sharing a single, structured and organized user-friendly system
- guaranteeing data access safety, management protocols, security and protection
- archiving electronic documents and ensuring their integrity over time (paperless)
- authorizing sharing of copies of circulars/documents/surveys directly (via e-mail)

Financial impact

- The work associated with this proposal would be financed from the regular budget, however a business case will be elaborated for fully implementing it. This work proposal is expected to bring cost savings to the Union budget as a result of partially or completely replacing current physical document printing, distribution and storage with digitized processes and solutions to be.

Impact of COVID-19 on the digital transformation of postal services

Postal response during COVID 19

- ✓ Deemed an essential service by governments and policy makers.
- ✓ Network reach, trust, local knowledge
- ✓ Supporting national governments to:

☐ **Stop the spread, treat the sick**

- Government information, PPE and tests materials

☐ **Meet society's needs**

- Prescription medicines
- Pensions. Other financial disbursements.
- Checking the vulnerable

☐ **Support business resilience**

- SME business support
- Building capabilities for adjacent services
- Digital transformation of the value chain

SURVEY: What actions has your organisation taken during the pandemic for the digital transformation of postal services?

- **Minimizing the outbreak of a pandemic** within the company, through preventive measures.
- Some of the **major services has been transformed to online** and **most of the deliveries are done via e-Lockers**
- Launching of Domestic Postal System for **track and trace and Task management system.**
- We have focused on the operation of **IPS.Post** and are seeking participation in the postal payments network of IFS.
- Issued **more hand scanners** to delivery agents to **speed up track and trace capture and publication.**
- Strengthened the **capacity of our track and trace website to answer increased demand for tracking.**
- Developed **order application for pick up shipment and payment services**
- Development of the **ERP Systems**
- * Moving **more services on to a mobile app** * Developing **cashless payment services** * Deployment of **self help services**
- Putting in efforts to go digital but different projects are still under process.
- Plan to prepare a **draft Policy of digital transformation**

Issues relating to the Direct Marketing Advisory Board (DMAB)

Chair: Tunisia

Mr Khalid Abid

intro

DMapp: the global online platform for cross-border direct marketing services to meet the rapid growth of international e-commerce

DMapp: enable businesses to provide an international offer to existing customers and reach new ones through direct marketing campaigns.

DMapp: one-stop shopping for global postal services, from address list management to production and delivery of campaigns through hybrid mail.

work flow

**I browse the
DMapp.post
menu of
participating
postal operators**

**I select the
provider and send
a request for an
offer**

**I agree and design
the campaign with
my customer**

**Fulfilment by the
DMapp.post
partner**

**My campaign
is delivered!**

DMapp.post at a glance:

Established relationship

The customer will deal with its own domestic designated operator

Easy to use

The customer/designated operator can browse several international offers through a simple tool

Cost effectiveness and sustainability

The platform enables hybrid mailing campaigns

Efficiency

The platform allows for profiled targets to be reached

Compliant with data protection frameworks

No personal data exchanged between participants

Printing formats

Personalized graphic layout for industry and/or use case

Possible to request a custom design through contact form

Choice of four formats for DM campaign

Budget updated for each selected format

Next steps

Key regional project on the digital transformation and diversification of postal services

Matching partners' goals

- 1 Collaborating with Pacific Islands Forum Secretariat (PIFS) on regional strategy and action plan.
- 2 Identifying donors to support DRE project in Pacific Islands.

Seeking experts to deliver the outcome

- 1 Calling postal experts to assist in-country field work
 - Assessment, analysis, recommendations and implementation activities
- 2 Seeking a project coordinator to work at IB for 12 months
 - a seconded expert would be a possibility
- 3 Contact paul.donohoe@upu.int if you are interested in helping to make an impact.

Your Cybersecurity from .POST

DOMAIN VALIDATION

- UPU ensures the control and the security steps in accreditation and release of .POST domains

CYBERSECURITY POLICIES

- Defined and updated to ensure increased security level
- Regular activity for updating the policies.

UPU ANTI-ABUSE DOMAIN MONITORING

- Constant monitoring activities

INCIDENT RESPONSE TEAM

- Building the CIRT
- Supporting post for the incidents
- Know-how on the cyber threats

SKILLS DEVELOPMENT

- Collaboration with GCA for bootcamps
- Webinars for members
- Workshop and training initiatives

COMPLIANCE MONITORING

- Real-time monitoring support
- Executive dashboard for all your websites

UPU Cybersecurity Policies

Website protection

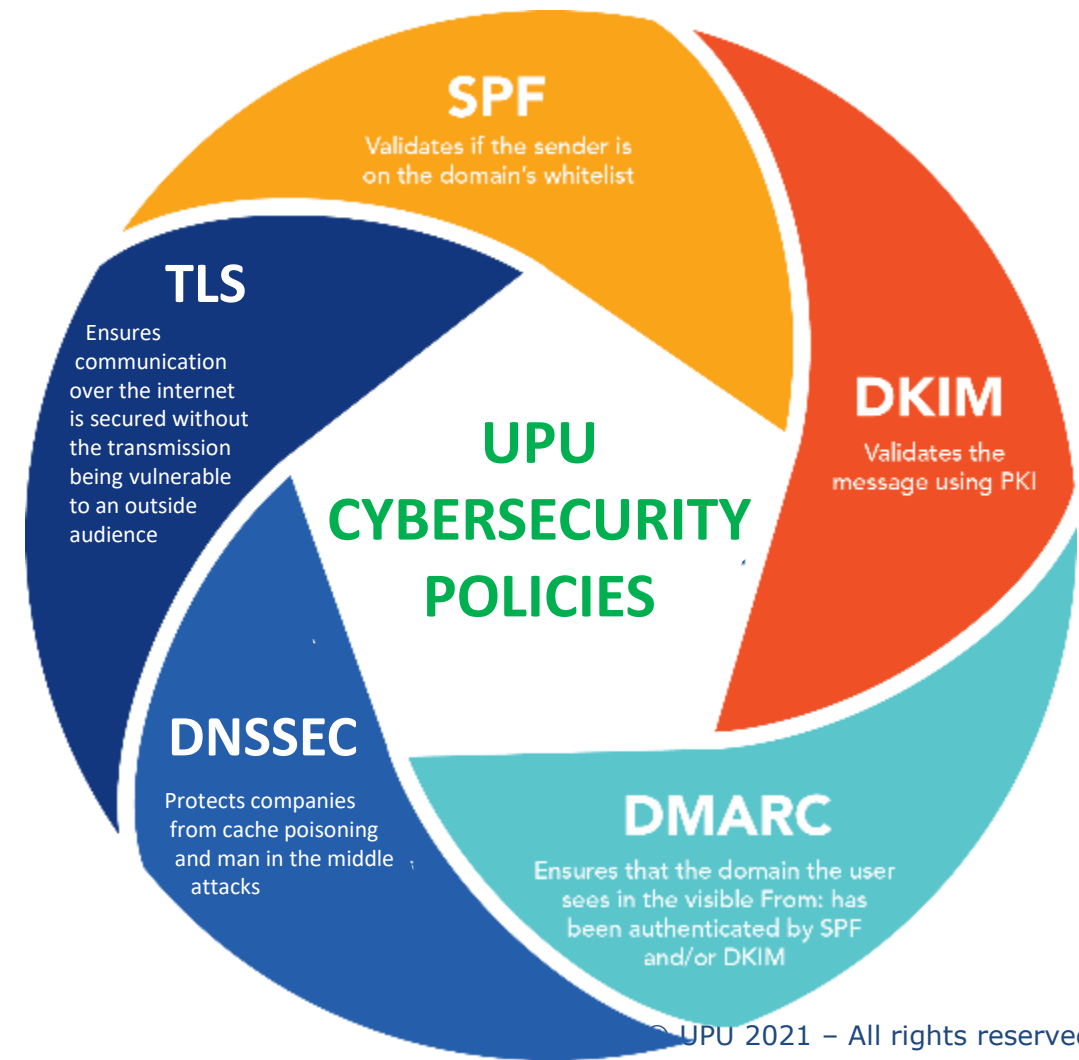

- ✓ Protect your website from Denial of Service attacks (DDOS protection)
- ✓ Protect your website from being hijacked and spoofed (DNSSEC)
- ✓ Verified domain (Verified by UPU)

Email protection

- ✓ STOP malicious emails from your domains (DMARC, SPF and DKIM)
- ✓ Receivers can tell if the email is “valid”

Customer data protection

- ✓ Protect customer data
Encryption recommendations (HTTPS & TLS)

UPU Anti-abuse domain monitoring

UPU is monitoring .POST for abuse such as **phishing**, **spam**, **botnets**, and **malware** by continuously scanning different sources (third party and internal).

Crypto-stamps

Cryptostamp: AKD Creates First Croatian Digital Stamp for Croatian Post

By Lauren Simmonds 10 September 2020

Like 8

Hrvatska pošta CRYPTO CENTER

Dobro došli na stranicu prve hrvatske

Kriptomarke!

Hrvatska pošta povodom Dana marke, na 180. obljetnicu izdanja poštanske marke „Penny Black“, predstavlja prvu hrvatsku kriptomarku. Uz svaku kriptomarku, kojom možete platiti poštarinu, izdaje se i digitalni token prigodnog naziva Postereum.

Postereum na podatkovnom bloku (blockchainu) može živjeti zauvijek i ima sakupljačku vrijednost, čime se postiže vjerno prevođenje filatelije u digitalni svijet.

As Novac writes on the 9th of September, 2020, Cryptostamp is the first Croatian postage stamp to connect the digital and the analog world. It consists of two parts, a standard removable self-adhesive postage stamp with a QR code and a digital token that remains for use on the blockchain (application (app), computer or mobile phone).

UPU's blockchain project brings philately into the digital world

Published: 02.12.2020 [Share](#)

Under its .POST Group (DPG), the UPU has launched a new blockchain project aiming to create a digital marketplace to host, trade and track crypto-stamps.

The project is sponsored by STAMPSDAQ, which became a private sector member of the DPG in October 2020. STAMPSDAQ is a start-up venture dedicated to creating, developing and operating a digital stamps marketplace, which will use blockchain for transactions, such as the issuing, trading, collecting and payment of crypto-stamps.
