## Waiving of Arrears of Contributions

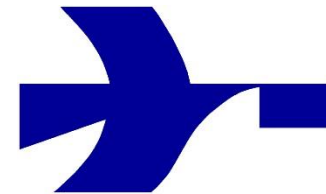

Congress Doc 24.7

22 June 2022

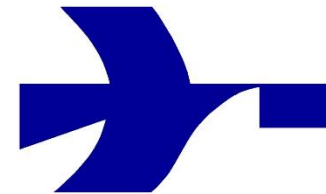

## Waiving of Arrears of Contribution

- In 2019 Nauru requested that historic debt owed for unpaid contributions to the APPU be waived. The amount of debt was US\$10,100 at that time. It remains at that level.
- The 2021 EC directed the Bureau to prepare the documents in question with an expectation that it would take into account the decisions made by the UPU at its Abidjan Congress.

## Waiving of Arrears of Contribution

- Doc 24.7 and its accompanying proposal 05, deal with the waiving of debt for Nauru.
- The Bureau has done this with relevant input from the Chair of the Finance Committee.
- The purpose of this brief discussion today is to explain a procedural point i.e., at the Congress, Doc 24.7 will be presented by the Bureau on behalf of the EC.
